-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Group I, claims 1 and 3 in the reply filed on 6/13/2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Applicant's statement that Applicant believes claim 7 should be grouped with Group III instead of Group IV is persuasive. Group I, now includes claims 1 and 3, Group II, includes 2 and 5, Group III includes claims 4 and 7 and Group IV includes 6 and 8.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Miyabe (JP 11239458 A) in view of Iwasaki et al. (JP 10099038A).

Miyabe ('458) teaches a method of manufacturing a soybean-derived food material wherein the soybean-derived food material is formed as fine particles of 20 to 50 microns and characterized in that water-added okara is boiled (*See paras. 7-22.*), however, fails to expressly disclose the okara being washed in either cold or warm water.

However, Iwasaki ('038) teaches washing okara with water (*See paras. 5-11.*) for the purpose of improving the odor emitted from the product (*See paras. 1, 5-6 and 8.*).

Therefore, it would have been obvious to wash the okara with water as taught by Iwasaki ('038) in Miyabe ('458) in order to provide a soybean based food with improved odor.
